TO: SUD Treatment Provider Network

FROM: Business Psychology Associates

RE: Molina MMIS Registration

Providers recently enrolled in BPA's Medicaid Specialty Network are required to verify eligibility for Medicaid eligible clients receiving services under the SUD funding system. As a part of the approval process your agency completed a MMIS Provider Applicant Information Form providing BPA with the necessary information to create a user account on the Idaho Medicaid Web portal.

BPA has completed the creation of user accounts on the Idaho Medicaid Web portal. All providers who submitted the information on the MMIS Provider Applicant Information Form should have received an e-mail notification. Please contact BPA Provider Network Management if you have not received the activation e-mail by Monday July 12, 2010. (800) 688-4013

These individuals should have received an e-mail notification from "No.Reply @unisys.com" indicating the new account is ready to be activated. The e-mail will contain a link, activation PIN number, and a trading partner ID number. Please complete the activation process upon receipt of the e-mail which will then enable those individuals to conduct Medicaid eligibility checks.

Thank you,

BPA Provider Network Management
